BAND STORY

"Define is a mixture of Afro beat, Pop, Reggae Dancehall, Hip Hop, Rock. Which makes him stand out from the crowd. He is definitely asking the questions which makes you uncomfortable, asking questions which you have always wanted to ask but don't know how to. He is not shy to touch topics that affect him and his community. From political charged songs to love songs. sincerely speaking define is what you are seeking, coming to your area, and with the mic he is creating mass hysteria. Define is definitely the right name for him because he can not be put in a box, and can not be labled."
