### BAND STORY

"Freestyl-Ent. is an independantly Canadian/ Nigerian based events management and promotions company. in the aspect of music promotions, we offer exposure to new artists looking to expand their horizons and increase their fan base and listeners. We do this by featuring them on our highly acclaimed mixtape which offers them exposure to the greater listening community across the world. At the moment, we are working with a number of artists, one of which (Praiz) currently holds 2 singles on the Abuja top 10 charts (Sunshine and Paradise) and is working on an album, which would also be released under the Freestyl-Ent. umbrella soon. Other artists include, but are not limited to Chareema (Bere Mole, Mulole etc), Jul7 ( I Dey Trip), Rolake (Just One), Skales (Feel The Music) etc. At the moment, most of the artists are based in Nigeria and Canada but individuals are encouraged to contact us from all over the world for a chance to get maximum exposure for their talent."
