

Roll-A-Dice Entertainment

BAND STORY

"Roll-a-dice was conceptualised in port Harcourt in 1996 by a young Donald Iro as a staple for events management as well as housing production businesses to cater for his long time partner Osi Bare. The name had been used extensively for recording lyrics for fun by Donald and Osi with a huge contribution from Malcolm Memberr and many other friends at that time. In 2008 however, the business is born, encompassing a large range of businesses in Music recording, publishing, Artiste as well as events management. Currently signed on the label today are Rivers states own crooner, Frank D nero and Letura. Frank D nero's album Kalangolo has been succesfully released in Nigeria and has achieved massive airplays and reviews as one of the best albums from that region in recent years...Roll-a-dice are working on the UK release at the momment and will keep everyone updated...The movement is just begining!!! ...its more than urban music!!!"
